

LEASING INFORMATION & APPLICATION

**Have £3000 worth of new cleaning equipment from only
£35/week over 2 years down to £17/week over 5 years**

The decision to invest in new equipment is never an easy one as there are often many other ways your cash could be working for you.

Dry Fusion (UK) Limited are pleased to offer you a tax effective alternative to paying cash for your new equipment. Why tie up any capital you may have when you can use leasing and have the best equipment for the job now.

With facilities provided by Focus Leasing, whether you are a new start or an established business, you can lease any Dry Fusion equipment from £1000 upwards (subject to credit approval)

Some Of The Benefits

Improve Cashflow

Have the equipment delivered and working with no cash outlay. Save your cash for the day to day running of your business.

Retain Credit Lines

Keep your banking arrangements for short term funding needs.

Easy Budgeting

Payments are fixed for the terms of the lease and cannot be recalled like an overdraft

Let The Equipment Pay For Itself

Pay for the equipment as you gain the benefit – after all, you wouldn't pay your secretary 3 years salary in advance!

Tax Savings

If you are (or will be!) making profits then take advantage of the tax savings – all payments under a lease are fully allowable as an expense for tax purposes.

Leasing v Cash

By paying cash the amount you can deduct from your tax bill is limited to capital allowances on the purchase. Also, don't forget the interest (or other return on capital employed – "ROCE") that is lost.

Cash Price	£3000.00
Less Tax Relief	£ 795.00
Plus lost ROCE	£ 472.88

So the net cost of paying cash is **£2677.88**

By leasing you will get tax relief on every payment

Total Rentals	£3786.48
Less Tax Relief	£1514.59

So the net cost of leasing is **£2271.89**

...and you are improving cashflow, the lifeblood of your business.

Example based on:
Equipment cost - £3000 plus VAT
Highest tax rate – 40%
ROCE – 5% per annum
Lease Term – 36 month

To find out more, just call Dry Fusion or Focus, or complete and fax the application enclosed to obtain a personalised quotation.
